IT seems now that nurserymen the country over have a good chance to operate at a profit this season. Undoubtedly, the wise nurseryman will figure very carefully before he re-invests his surplus funds.

Probably the tendency will be to bolster up production of nursery stock to the point where there will be large surpluses, disastrous price-cutting and bonfires. We hope that in some way such a condition can be avoided.

It is our earnest desire to improve our quality and service, constantly keeping in mind the fact that our own welfare depends on the success of our customers.

PORTLAND ROSES

The roses we offer below are all grown near Portland in good sandy loam soil, entirely without irrigation, thus securing a particularly fine root system, and firm, well ripened wood. They are all budded extremely low.

PLEASE NOTE. Our roses are tied in bunches of ten, and we do not break the bunches at the per ten price. If less than ten are ordered the price is 2½ cents higher per plant.

Pay Off Debts

●

TO small business men I suggest that they use such profits as they may make in the near future and cannot use in their own business to pay off any debts that they owe. Another wise move would be to buy out other stockholders, as Henry Ford did several years ago. If you want to run your business you must own it. To a salaried person who has a surplus I suggest either the purchase of a house, or the rapid retirement of the mortgage on the house now occupied. Dollars may be cheaper in later years, but the time to pay debts is when money is coming easy.

Don't take your easy money and give it to some wise guy in the stock market. The man who owns your mortgage is a wise guy, too, and he has probably collected interest from you regularly throughout this depression, even at times when your wife and children were in sore need of shoes.

If your business and your job looked after you through the bleakest days of the depression, and it probably did, then, in heaven's name, take care of your business and your job in the years ahead. Let others make the big money that tempts you in real estate and stock market speculation, in wildcat specialties, and in green pastures that you have never seen.

William Feather.
